CUSTOM

Joinery. Custom Furniture.

Our company is a Family Business for more than 40 years. Since the beginning we are passionate about our craft and we learn every day how to build the best Custom Furniture for you.

Knowledge and precision are the cornerstones of our work, from the design process to production. We combine our craftsmanship with the use of modern technologies, including **3D Software** and **CNC Machining Centers**.

For us nature and the human are equally important, therefore we treat our furniture with ecological finishings such as oils, furniture wax and water based paints.

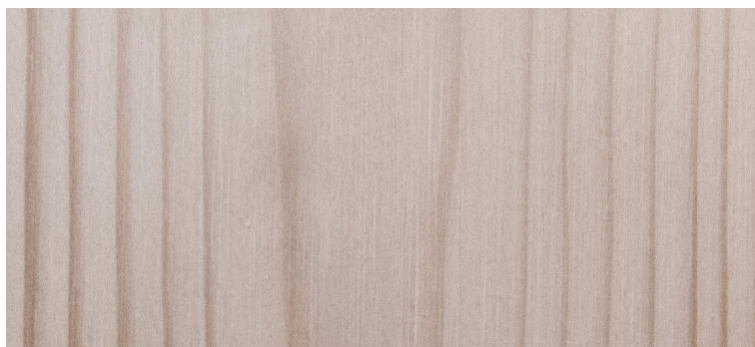

All that expresses our interpretation of the best **MADE IN ITALY** quality.

Solid Wood
natural beauty.

As one of the most valuable materials, **solid wood** is the essence of what Custom Furniture is about. There is no equal in tactile sensitivity, variety and positive contribution that wood can give to a room climate. Solid wood absorbs humidity and regulates the atmospheric environment. From Swiss pine to walnut, we love to chose with you the *beauty* of nature.

When it comes to materials and colors, the right combination is essential.

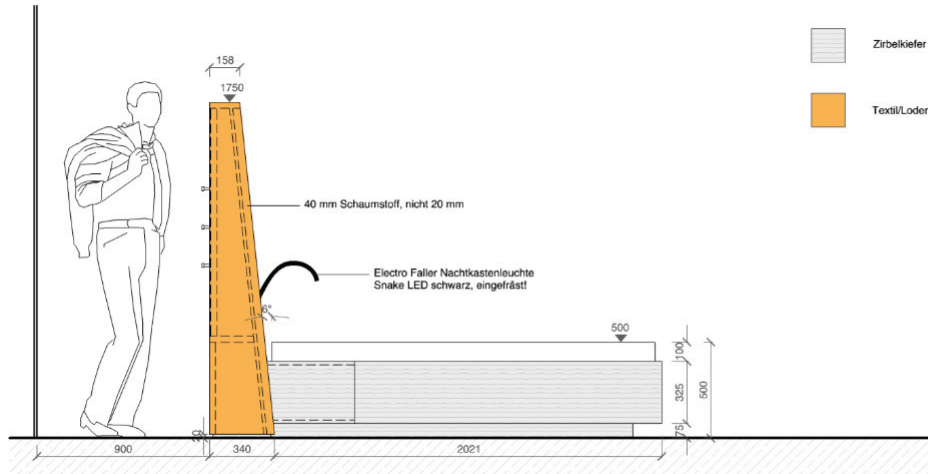

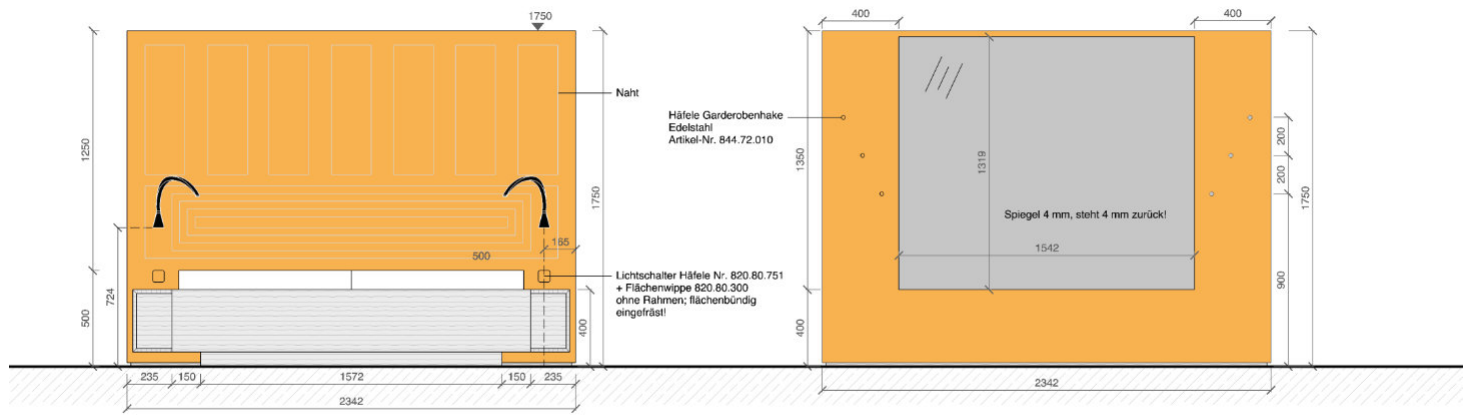

We work hand-in-hand with **architects & designers**, to be able to deliver to our clients the best possible choice and the appropriate detailing for your *custom project*.

Our joinery has gained an excellent expertise in the processing of sensitive ecological or high gloss/ super matte coatings as well as hyper materials such as Cleaf® or Fenix®.

We also cover our furniture with textiles alike suede, leather or Alcantara®.

The bases of a good project are creativity, ideas and concepts.

ARCHITECTS AND DESIGNERS conceive,
we realize with great passion and professionalism.
